Yes, this is assigned to Kris. I'm not free today, but I am tomorrow.

Dean and/or Kris, do either of you have a few minutes to talk about this matter? It was both a superfund cleanup and a CID case. I thought that you, Kris, were assigned to it, although I am not certain. We have decided to close our case and would like to discuss next steps with you. I am available today and tomorrow afternoon. Thank you.
